**Farm Saved Seed / Mobile Seed Cleaning and Dressing / Bulk Cleaning Services
TERMS 2024**

Terms

Company:- T Denne and Sons (Holdings) Limited.

Customer: Any persons or entity who accepts the quotation and or instructs the Company to undertake work or a service.

Operator: The person(s) responsible for operating the machinery and employed by or contracted to the Company.

GENERAL

All bulk cleaning, seed cleaning and dressing and testing or any other task undertaken by the Company will be subject to these terms and conditions unless agreed in writing by T Denne and Son (Holdings) Ltd.

PRICES

- A. Prices quotes are as follows: –
- Per tonne or part thereof.
 - Per hour or per day for bulk cleaning where it is not possible to accurately account for physical tonnage processed.
 - Per sample for lab purposes
 - Per tonne for chemical applied.
 - Per bag for bags used.
- B. If it is not possible to clean the grain or seed to a suitable quality in one pass, then each subsequent pass through the machine will be charged as though it were a separate lot, provided that the Company receives confirmation from the customer that a second clean is required.
- C. With the exception of chemicals held in stock at the time of order, the Company reserves the right to alter the sale price of the chemical treatment to one that will reflect any uplift in cost of supply to the Company.

SAMPLING

- It is the Customers responsibility to ensure that sampling is carried out in a correct way to ensure it represents the bulk of grain or seed to be cleaned.
- It is the Customers responsibility to ensure that any grain bulk cleaned meets the quality acceptable to the end user prior to the movement of the grain. The Company accepts no liability should the cleaned product remain unacceptable to the end user.

CLEANING OPERATION

- It is the customers responsibility to supply a continuous supply of grain to the mobile seed cleaner and an operator and loader/forklift to remove the filled bags away from the bagging area.
- Any waste produced by the cleaning operation, normally in the form of chaff and waste seed belongs to the customer and is the Customers responsibility to remove.
- If the Operator of the mobile seed cleaner inspects the uncleaned grain and believes it unsuitable for the operation, then the Operator may opt to decline the cleaning process.

**FIRST
CROP
SEEDS**

- D. It is the customers duty to ensure suitable hard standing is available for the machinery to operate and in wet weather provide a building to operate within. If no building is available and the rain is forecast for more than 2 hours, then the Company reserves the right to return later or a later date to complete the clean.
- E. The Companies employees are not permitted or licenced to operate the customers machinery. It is the customers responsibility to provide operators to always keep loaders/tractors and forklifts operational. If an employee of the Company does operate one of the customers machines at request of the customer, then the customer agrees to fully indemnify the Company and its agents and employees against any claims, costs, losses and expenses suffered made as a result of an accident caused by the employee using the customers machinery.

LIABILITY

- A. Orders are accepted in good faith and every effort will be made by the Company to deliver on such orders, but the Company will not be held liable for any losses suffered from a failure to carry out part or all for the work by a particular date.
- B. The Company will at its discretion set the machine to clean as hard as is required to produce a quality product in line with the customers' expectations and accepts no liability for the level of screenings produced as a result.
- C. All grain and seed cleaning and dressing is carried out at the customers risk. The Company accepts no liability for damage caused to the customers property.
